

# LEIGH MARINA

## NEWS – WINTER 2020

### **Hello to all our customers from the Leigh Marina team:**

Paul Deverell, Angela Roe and Emma Taylor  
Yard Operatives: Steve Frasle and Chris Smith  
Any enquires, don't hesitate to contact us.

### **Security**

The new CCTV cameras are nearly finished so we can keep a better eye on your boats and property. We will eventually be looking at getting electronic fobs for every berth holder so we can improve the gate security too.

### **Wi-Fi**

Apologies if you've had trouble with the Wi-Fi. Continue to use "Leigh Marina" with passcode: b2a4a2c4a5 (as before).

### **Dredging**

We have plans to dredge throughout the marina and hopefully the creek too, providing easy access in and out of the marina and to your berths.

### **Payments / Invoices**

Any payment / invoice queries please email Angela Roe or come into the office and visit her on Wednesdays.

### **Tidying up**

We have been making a start getting rid of unused equipment and generally sprucing things up in the marina.

### **The Marina Office is open**

Monday – Friday 9am-2pm

### **Electricity**

The electricity situation here at Leigh Marina is improving! New cabling, switchgear and meters are being installed and hopefully even a new substation at some point, which will provide a much more reliable supply.

### **Your contact details**

Do pop into the office or email us to update your contact details. We'd like to encourage our customers to go paperless if possible, so let us know if you would like to receive these newsletters, invoices and other correspondence via email.

### **Marine Engineering**

Dave Taylor is the new marine engineer at Leigh Marina. So if you need any work doing on your boat, come up to the office to book him in.

Find out more about Dave and his work here [www.taylorsmarineservices.co.uk](http://www.taylorsmarineservices.co.uk)
